ACHIEVEMENT & QUALIFICATION

- **HCCDA – Tech Essentials Certification**, Huawei Cloud (2025)
- Designed and developed a **full-stack web application** from scratch, including multi-step forms, role-based access control, workflow approvals, dashboards, and reporting features
- Strong **teamwork and communication skills** demonstrated through group projects and presentations
- **Flexible and adaptable**, able to quickly learn new technologies and work on diverse projects

KEY SKILLS

- | | | |
|-----------------|-------------|------------------|
| • Javascript | • NodeJS | • Git |
| • Typescript | • ExpressJS | • GitHub |
| • ES6+ | • OAuth2 | • GitHub Actions |
| • HTML5 | • JWT | • Docker |
| • CSS | • MySQL | • Docker Compose |
| • CSS3 | • MongoDB | • SSH |
| • VueJS | • API | • Postman |
| • ReactJS | | • Nginx |
| • NextJS | | • Linux |
| • Bootstrap | | • Window |
| • Tailwind | | • AWS |
| • Framer Motion | | • Figma |

PROFILE & OBJECTIVE

Ambitious student with a strong foundation in web development and interest in emerging technologies. Presently skill-enhancing in both frontend and backend. Seeking an internship position to acquire hands-on experience, contribute to real-world projects, and become a proficient **Fullstack Developer**.

EDUCATION

Computer Engineering (Aug 2022 – Present)
Mae Fah Luang University, Chiang Rai

UNIVERSITY PROJECTS

Room Reservation System (Web) (2023)

- Designed UI/UX designs and interactive prototypes on Figma
- Developed the frontend using Figma prototypes
- Designed MySQL database for the website
- Implemented JWT authentication and password hashing in the registration system
- Developed RESTful API using Node.js and MySQL
- Integrated frontend with backend APIs
- Implemented role-based access control (RBAC)
- Created a dashboard to monitor room availability and status

Room Reservation System (Mobile App) (2024)

- Developed a mobile room reservation app using Flutter and Dart
- Implemented time-slot booking, approval workflow, and secure authentication
- Designed UI/UX and interactive screens for mobile devices

EXPERIENCE

The Center for Academic Services, Mae Fah Luang University
(Feb 2025 – Jul 2025)

- Designed and developed a full-stack web application for internal use
- Implemented multi-role access control, Google login, multi-step project forms with file attachments, workflow approvals, dashboards, and reporting
- Collaborated with staff to gather requirements, optimize workflows, and ensure smooth deployment
